

T-SLOT MILLING COVERS

While T-Slot tables have been a staple for years, chips filling the grooves has always been a problem. Save time with the Octane Chip Guard!

- The extrusion is slightly oversize for a perfect compression fit
- Made out of high temperature silicone rubber
- Cleanup takes seconds between cycles and the end of day compared to minutes or hours
- Suggest LPS-3 Rust Inhibitor prior to installing

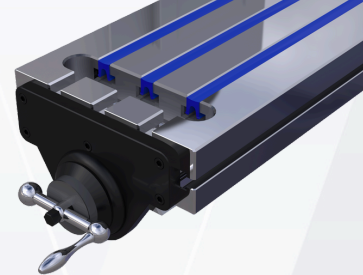

Select the size that matches your T-Slot opening!
